This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

THE character of the book of records, included in printed volume eight and in this volume, is explained in the preface to volume eight.

The remaining entries contained on pages 155 to 312 inclusive in the volume of town records entitled "Town Meetings No. 3 1677 to 1750" furnish the material for this ninth volume of the Early Records of the Town of Providence. This volume, like those preceding it, is authorized by the following resolution of the City Council, approved March 6, 1891:

"RESOLVED, That Horatio Rogers, George M. Carpenter, and Edward Field, are hereby appointed record commissioners, who shall serve without compensation, for the purpose of collecting and printing the early records of the town of Providence. And said commissioners are hereby authorized to expend the sum of one thousand dollars for collecting and printing said records, said sum to be charged to the appropriation for printing."

384038

Since the passage of this resolution there have been passed from time to time other resolutions making appropriations for the prosecution of this work.

The material contained in this volume consists largely of layouts of various highways in and around Providence. Through the courtesy of J. Herbert Shedd, City Engineer, the commissioners have been able to identify nearly every one of these highways, and foot notes are added to show the present street or highway intended by the crude and indefinite courses and boundaries given in the originals. The remaining entries consist of a few town meeting records, records of coroners' inquests, indentures of apprenticeship and records of marriages, while a part of the book is taken up with entries relative to stray cattle, reports of wolf killers and other miscellaneous records.

In order to save the reader the trouble of consulting the previously printed books the signs and characters used for special purposes in the text are here again explained.

The figures at the top of the pages, and enclosed in brackets, indicate the paging of this present volume.

The heavy figures enclosed in brackets represent the paging of the original book as it now stands.

This mark | shows the beginning and end of interlineations in the original.

Words or letters printed in parentheses are so found in the original.

Brackets enclosing blank space, thus, [ ] signify that something is missing, or illegible, in the original.

The sign ꝑ is used to represent a contraction or double letter, which, in the original, stands for pr, and is used as the representative of syllables containing those letters with a vowel.

In very many cases the marks or signs manual made by illiterate persons to instruments, in lieu of their own proper written signatures, are reproduced in fac-simile on the records by the recording officer, but in print in this volume these signs are usually represented by an X, being the conventional sign commonly used for that purpose.

Four indexes follow the text in this book, viz.: an Index to Names, an Index to Indian Names, an Index to Subjects, and a Miscellaneous Index.

HORATIO ROGERS,
GEORGE M. CARPENTER,
EDWARD FIELD.

A Returne to the Purchassers met this 8th of ffebruary 1713/14. /

According to your Order at your last Meeteing wee attended the Gentlemen, Partyes at difference about the High way that should lead to the Narrow Passage, & after inspection Made in the premises, & long debate about the conserne; Jt was Mutually agreed by all partyes concerned, that the said High way should take its departure from the North East Cornner of William ffields land which is the Northwest Cornner of m^{r} Tillinghasts Land, and so to Range on the North side of m^{r} Till-

inghasts | land | untill it Comes to the North East Cornner of his land, and from thence to Run upon a straight line to the south side of Thomas Olneys Gate where it Now Standeth & the said bounderyes to be the south side of the high way; And the High to accomodate Justice Browne & Daniell Abbott, to take its departure from Justice Tillinghasts said Northeast Cornner & goe as direct as may be; considering the great bottome or Hollow that is there, in [**157**] into the supposed high way that was formerly allowed, and so to said Brownes barrs, & then Northward to said Abbotts land; The way to Justice Brownes land goeth on the southerne side of sd bottom. /

Thomas ffenner,
Richard Waterman. /

This Returne is accepted by the Purchassers, & they do now Order that the High way leading to ye fferrey shall hold the breadth of Three poles Northwardly from ffields boundes, and so hold that breadth to the fferrey Gate, & the way to Brownes & Abbotts land to hold that Breadth; all act or acts to the Contrary not with standing: ꝑ Jos: Jenckes Clerk to the Purchassers. /

Recorded ffebruary the 19th 17$\frac{18}{14}$: ꝑ Tho: Olney Clerk. /

Whereas at a Purchassers meeteing Aprill the 20th 1713 Jt was ordered that a High way should be laid out from the East End of that High way which lieth by sam^ll^ winsors house; & so to along to the fferrey Gate, but the stateing of it out was omitted, The which was againe proposed at the Towne meeting on the quarter day January y^e^ 27th 17$\frac{18}{14}$ and then by a full voate of the Towne it was ordered so to be stated out, & the Towne surveior & a magestrate hath since so done it, Therefore it is now Recorded ꝑ me Tho: Olney Clerk. /
